### DISCLOSURE AS PER BASEL II As of Ashwin End 2071 (17 October, 2014)

# 1. Capital structure and Capital Adequacy

## • Tier 1 capital and a breakdown of its components;

| Particulars                                      | NPR in '000 |
|--|-------------|
| Paid Up Capital                                  | 2,311,552   |
| Proposed Stock Dividend                          | 346,733     |
| Share Premium                                    | 67,838      |
| Statutory General Reserves                       | 914,043     |
| Capital Reserve                                  | 1,000,000   |
| Retained Earnings                                | 170,714     |
| Un-audited current year cumulative profit/(loss) | 154,262     |
| Deferred Tax Reserve                             | 28,193      |
| Less:  |             |
| Miscellaneous expenditure not written off        | 11,530      |
| Core Capital                                     | 4,981,805   |

## • Tier 2 capital and a breakdown of its components;

| Particulars                    | NPR in '000 |
|--------------------------------|-------------|
| General Loan Loss Provision    | 375,162     |
| Exchange Equalization Reserves | 33,314      |
| Subordinated Term Debt         | 500,000     |
| Investment Adjustment Reserve  | 645         |
| Supplementary Capital          | 909,121     |

## • Details of subordinated debt

The Bank has "7.25% NIC ASIA Bond 2077" for NPR 500 million with the following features;

| Outstanding Amount                                | : | NPR 500 million |
|---|---|-----------------|
| Maturity Period                                   | : | 7 years         |
| Interest Rate                                     | : | 7.25% per annum |
| <ul> <li>Interest Payment frequency</li> </ul>    | : | Half Yearly     |
| <ul> <li>Amount raised during the year</li> </ul> | : | NPR 500 million |
| Amount eligible to be reckoned as capital fund    | : | NPR 500 million |
|   |   |                 |

## • Deductions from capital;

- The fictitious assets (deferred revenue expenditure) amounting to NPR 11,530,141 has been deducted from the core capital over the period of the assets.

# • Total qualifying capital;

| Particulars                                   | NPR in '000 |
|---|-------------|
| Core Capital                                  | 4,981,805   |
| Supplementary Capital                         | 909,121     |
| Total Qualifying Capital (Total Capital Fund) | 5,890,927   |

## • Capital Adequacy Ratio;

- 13.88%

## • Summary of Bank's Internal Approach to assess Capital Adequacy

Bank management is responsible for understanding and assessing the nature as well as level of risk taken by the bank and relating the risk to the capital adequacy level.

The Credit Risk Management unit reviews the Credit Risk, analyzes the trend, and assesses the exposure impact on capital, which is vital in Credit decision-making. Also for managing Credit Risk, Credit Policy, Credit Policy Manual and Product Papers have been developed for building risk awareness culture throughout the Organization.

In respect of Operational Risk, Operations In-charges and Operation Managers of respective Branches and Departments provide operational loss data to Operation Manager, Corporate via regular reporting requirements stipulated by Operational Risk Management Policy. These data are further analyzed, reported and appropriate action taken as per requirement.

With regard to Market Risk, Treasury maintains net open position of all currency on daily basis. Head Treasury reviews / analyzes the trend and assesses the exposure impact on capital. The net open position report is presented at the ALCO for discussion and future strategy setting.

In compliance with NRB Directives and guidelines, Bank has formed a Risk Management Committee (RMC) in order to monitor and mitigate various risks of the Bank i.e. Credit, Operations, Market and Liquidity. In order to strengthen compliance in accordance to directives/instructions issued by NRB and to identify, measure, monitor, and control all major risk of the bank adequately, this committee has been formed in line with adaptation framework of risk management.

RMC on a periodically basis, discuss and reviews major errors/lapses (based on output checking report, internal/external audit reports), operations losses/risk, reputational risk, fraud and forgeries of the Bank/ Branches and ensures that timely corrective and preventive actions are taken to mitigate such risks in future.

# 2. Risk Exposure

Risk weighted exposures for Credit Risk, Market Risk and Operational Risk

|   |                 | NPR in 000'         |
|---|-----------------|---------------------|
| Risk weighted Exposures   | Current Quarter | Previous<br>Quarter |
| a. Risk Weighted Exposure for Credit Risk   | 38,242,260      | 37,356,027          |
| b. Risk Weighted Exposure for Operational Risk                                      | 2,557,223       | 1,969,798           |
| c. Risk Weighted Exposure for Market Risk   | 139,767         | 136,451             |
| Adjustment Under Pillar II  |                 |                     |
| Add RWE equivalent to reciprocal of capital charge of 3 % of gross income.          | 692,400         | 511,247             |
| Overall risk management policies and procedures are not satisfactory, add 2% of RWE | 818,785         | 789,245             |
| Total Risk Weighted Exposures (a + b + c)   | 42,450,435      | 40,762,768          |

# Risk Weighted Exposures under each of 11 Categories of Credit Risk

|  |                    | NPR in 000          |

| Available for Sale         | 160,088         | 56,243              |  |

### 3. Risk Management Function

The Bank has been building robust Risk Management Capabilities in order to achieve an effective Risk Management framework and contain the risks associated with the business; a fully functional risk management unit is responsible for identifying, reporting, controlling and managing credit, operational and market risk.

#### **Credit Risk**

For Credit Risk Management a separate risk management unit (segregated from the sales function of business) has been created and directly reports to Chief Executive Officer. A dedicated sub-unit within the risk management for management of non-performing / problem assets works towards implementing risk grading / credit scoring processes in order to achieve better management of credit risk and to achieve better efficiency in credit processing.

#### **Credit Risk Mitigation (CRM)**

The Bank has extensive policy and guidelines to mitigate credit risks. The Bank's credit policy has strengthened minimizing credit risk and provided support to make qualitative analysis based on sound credit principles and procedures. Bank has a policy to consider as security for pledge, hypothecated or mortgage which have value considering physical control and legal title. Bank has considered eligible CRM as prescribed by Capital Adequacy standard. Collateral taken as Deposit with own Bank, Deposit with other BFIs, National Saving & Development Bonds, and Gold & Silver have been considered as CRM and adjusted on overall risk weighted exposure on credit risk in line with the standard.

#### **Operational Risk**

Effective Operational Risk Management systems aims to minimizing losses and customer dissatisfaction due to failure in processes, focusing on flows in products and their design that can expose the Bank to losses due to fraud, analyzing the impact of failures in technology / system, developing plans to meet external shocks that can adversely impact continuity in the Bank's operations. Bank has introduced a "Comprehensive Operational Risk Monitoring and Reporting Framework" as well as "Output checking" at all branches covering all transactions on daily basis to minimize Operational Risk.

#### Market Risk

Bank has an ALCO (Asset Liability Management Committee) which meets periodically to discuss product pricing for deposits and advances and maturity profiles of assets and liabilities, articulating interest rate, view of bank, funding policy, transfer pricing policy and balance sheet management.

The Audit and Compliance function is also independent from Bank Management; this unit focuses on development of internal procedures and check and control systems / procedures. The Internal Audit and Compliance unit undertakes a comprehensive audit of all business groups and other functions, in accordance with the approved audit plan. In order to mitigate above risks, further this unit function is also independent with separate reporting lines, with audit function reporting directly to Board Audit committee.

The Bank has been working continuously towards risk diversification of its assets base so as to achieve better portfolio mix and to protect/enhance the overall risk on its loan book. The strategic focus of mapping business is gradually reducing high-risk assets and increasing low risk exposures.
